

RsbPrgCom - program communication library

Freely and dynamic configurable inter program communication library.
Exchanging data consistently with definable interfaces and layers.

Standardized interface
Integrated documentation
Extendable
Modular / Flexible
Diagnosable
Configurable
Tested
Future ready

RSB Solutions
Automation Studio libraries

B Program-relations configurable
with XML-files
Freely configurable

A Consistent data exchange
between process-programs
Consistent data exchange

D Freely extendable program
hierarchy. The key to modularity.
Scalable hierarchy

C Definable interfaces structured and
definable direction of the data flow
Defined data flow
