

RsbTmpl - Function block template

Template library for easy and fast creation of new function blocks. The starting point of standardization.

Standardized interface
Integrated documentation
Extendable
Modular / Flexible
Diagnosable
Configurable
Tested
Future ready

 **RSB Solutions**
Automation Studio libraries

Predefined command samples with state return.

C

Command-handling

Structures and variables with defined function, direction and behaviour

A

Clearly defined interface

Enabling / disabling statemachine and main-statemachine body

B

Standard statemachines

Fast creation of function block including all necessary elements.
Freely nameable

D

Code snippet
